Overview

Code in Place is a free, human-centered, intro-to-coding course from Stanford University aiming to offer the highest quality free coding course to many students from around the world. Section leaders meet weekly with a small group of learners in order to solidify their understanding of the course material with hands-on coding practice and more individualized attention. This section leader has successfully led a group of diverse students through the first half of Stanford's flagship intro to Python course, CS106A. Section leaders gain interpersonal skills, practice engaging pedagogy, and demonstrate their mastery of basic Python principles.
